

# THE SHORELINE FOR LAB

August 2018

## ABN REPORT

Seacoast is proud to announce a new Order Entry *ABN Report*. This new report is intended to assist laboratories in the management of Clients that continuously fail to provide the correct Diagnosis Code for tests that fall under the Limited Coverage Policies for the payer. By keeping a log of the ABN alerts provided during the Order Entry process, SurroundLab is able to produce a detailed report that can be periodically reviewed and even supplied to Clients for educational and training purposes. The ABN Report parameters include Date Range, ordering Site selection, Client selection, Detail or Summary formats, and 3 different Sort options. The report may be generated to paper, and also as a .csv format.

To further automate the review process, the new ABN Report has also been added to the SurroundLab Plus *Report Scheduler*.

The report output includes the following information:

DETAIL	SUMMARY
Accession	Accession
Date	Date
Patient Name	--- Pat Name Excluded on Summary ---
DOB	--- DOB Excluded on Summary ---
Sex	--- Sex Excluded on Summary ---
Payer Code ID & Name	Payer Code ID & Name
